We are pleased to announce that Berkshire Technology Solutions, hereafter known as BTS, has entered into a definitive agreement with Invensys to acquire certain assets and the exclusive rights to all Wonderware DNC software, hardware and service agreements. In 2007, the Wonderware business unit of Invensys acquired CIMNET, including these DNC offerings.

BTS has been created from the former employees, managers and dealers of CIMNET with the objective of improving its position as a leader in the DNC world of communicating with and collecting data from CNC machine tools.

With the formation of BTS, customers, prospects and suppliers will continue to work with many of the same people and dealers that they have worked with before. BTS and its dealers will assume immediate responsibility for your system's support and maintenance agreement on all DNC software and hardware that you previously purchased from CIMNET or Invensys / Wonderware. BTS will continue to offer the same excellent level of sales and support that was provided in the past.

What will immediately change is a new commitment from BTS is in place to enhance the present DNC Professional™ software and to create new related software. Software development work will start immediately to provide enhancements and updates to the DNC Professional code base. BTS's goal is to send out a software update release to all maintenance customers within the next 90 days. In addition, another DNC Professional software release will be sent out by BTS within 6 months - providing a new 'look and feel' user interface with additional features.

The BTS team has many years of Industry experience in the discrete parts manufacturing world. BTS is dedicated to providing quality products and the highest levels of customer support moving forward. In the coming weeks you will be receiving additional information on all aspects of the new BTS business and contacted by representatives from BTS and its dealers.

Invensys / Wonderware and BTS would like to thank you for being such a loyal customer of DNC solutions. BTS hopes to earn your continued trust in the future. Please feel free to email or contact Tom Byrne or your local dealer to discuss any aspect of the above at any time.

Sincerely,

Tom Byrne
